

## Key investor information for investors in Switzerland

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Deutsche  
Asset Management

## DWS Russia

Security code: 939855 ISIN: LU0146864797

Management Company: Deutsche Asset Management S.A., a member of the Deutsche Bank Group.

## Objectives and investment policy

The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (MSCI Russia 10/40 (RI)). In order to achieve this, the fund invests primarily in equities of issuers having their registered office in Russia or of issuers that are registered outside Russia but conduct their principal business activity in Russia. In this context, the selection of individual investments is the responsibility of the fund management. The fund is oriented to the benchmark. It does not track it exactly but attempts to exceed its performance and can therefore deviate substantially - both positively and negatively - from the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares on each valuation day. The redemption may only be suspended in exceptional cases taking into account your interests as an investor.

## Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 7 because its share price may fluctuate very strongly and the likelihood of both losses and gains may therefore be very high. The following risks could be of particular significance for the fund. These risks can impair the performance of the fund and thus impact negatively on the net asset value per unit and on the capital invested by the investor. The unit value may at any time fall below the purchase price paid by the client.

The fund invests its assets in selected regions or sectors. This increases the risk that the fund may be negatively influenced by the economic and political conditions in the respective regions or sectors. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases. The fund invests in emerging markets. Investing in assets from the emerging markets generally entails a greater risk (potentially including considerable legal, economic and political risks) than investing in assets from the markets of established countries. A more detailed description of risks and other general information can be found under "Risks" in the sales prospectus.

## Charges

The costs and fees borne by you are used for the management, administration and custody of the fund, as well as for its distribution and marketing. These costs restrict the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	5,00 %. This is the maximum amount that will be deducted from your investment prior to investment.
<b>Exit charge</b>	No redemption fee
Charges taken from the fund over a year	
<b>Ongoing charge</b>	2,05 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	0,00 % The performance-based fee is equal to 25% of the amount by which the performance exceeds that of the benchmark. Details can be found in the "Costs and services received" section of the sales prospectus.

The front-end load specified here is a maximum amount. It may be lower in individual cases. To find out the amount that is currently applicable for you, please request it from the office responsible for you or from your financial advisor. The current costs specified here were incurred in the fiscal year of the fund, which ended on 31.12.2016. They may change from year to year. The current costs do not include the performance-based fee and the transaction costs. Additional information on costs can be found under "Costs" in the sales prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from DWS Russia were deducted during the calculation. Initial sales charges and redemption fees were not taken into account. DWS Russia was launched in 2002. The performance was calculated in EUR.
