**Sponsoring Entity**

An entity that has registered with the Internal Revenue Service (IRS) and has agreed to fulfil the FATCA obligations on behalf of a sponsored entity.

**Tax residency**

Entities:

An entity will be treated as Lithuanian tax resident if it is incorporated in Lithuania. Lithuanian taxable entity (Lithuanian tax resident) shall mean a legal person registered in accordance with the procedure prescribed by the legal acts of the Republic of Lithuania. An entity not incorporated in Lithuania shall not be treated as Lithuanian tax resident.

When is an entity tax resident in another country?

The domestic laws of the other countries lay down the conditions under which an entity is to be treated as tax resident. They cover various forms of attachment to a country which, in the domestic taxation laws, form the basis of a comprehensive taxation (full tax liability). **Lithuanian resident shall mean:**

- 1) any natural person whose permanent place of residence is in Lithuania during the tax period, or
- 2) any natural person whose place of personal, social or economic interests is in Lithuania rather than in a foreign country during the tax period, or
- 3) any natural person who is present in Lithuania for a period or periods in the aggregate of 183 days or more during the tax period, or
- 4) any natural person who is present in Lithuania for a period or periods in the aggregate of 280 days or more during successive tax periods and who stayed in Lithuania for a period or periods in the aggregate of 90 days or more in any of such tax periods, or
- 5) any natural person who is a citizen of the Republic of Lithuania but does not meet the above-mentioned criteria, and who receives remuneration under an employment contract or a contract in its essence corresponding to an employment contract or whose costs of living in another country are covered from the state budget or municipal budgets of Lithuania.

There are some exceptions; a natural person, even though he complies with the above-mentioned provisions, shall not be deemed to be a resident of Lithuania if he is:

- 1) a diplomatic agent of a foreign state, member of the administrative and technical staff or service staff of the diplomatic mission, consular post or international organisation, who is not a citizen of the Republic of Lithuania (except for stateless persons whose permanent place of residence or place of personal, social or economic interests is in Lithuania during the tax period), or
- 2) not a citizen of the Republic of Lithuania who receives only such income which is incidental to employment relations or relations in their essence corresponding to employment relations for performing work in Lithuania from a foreign country, its political or territorial administrative unit or its local authorities, or
- 3) not a citizen of the Republic of Lithuania who only carries on individual activities in Lithuania from a fixed base, which is the sole purpose of his arrival in Lithuania.

**When is an individual tax resident in another country?**

In general, the tax residence is the same as the permanent residence or whereabouts. However, each country has its own set of rules for determining tax residence. For more information about tax residency rules in a certain jurisdiction, please visit the OECD Automatic Exchange Portal at: <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/tax-residency/#d.en.347760>.

**If you have any questions about how to determine your tax residency status you should consult a tax advisor or your local tax authority.**

**Taxpayer Identification Number (TIN)**

The term Taxpayer Identification Number (TIN), or a functional equivalent, is a unique combination of letters or numbers assigned by a jurisdiction to an individual or an entity which is used to identify the individual or entity for the purposes of tax administration. Some jurisdictions do not issue a TIN. However, these jurisdictions often utilise some other high integrity number with an equivalent level of identification (a "functional equivalent").

Further details on jurisdiction specific TIN formats can be found at: <http://www.oecd.org/tax/automatic-exchange/crs-implementation-and-assistance/>.

You are generally considered to have such Residency if you are resident in the United States; are a U.S. Citizen (including those with dual citizenships); if you are a holder of a valid "U.S. Residence Permit"; or have a valid work permit ("Green Card"). If born in the U.S., you are generally regarded as a U.S. Tax Resident. More information regarding U.S. Tax Residency can be found at: [www.irs.gov](http://www.irs.gov).
