You need a payment account in Luminor to conclude a loan agreement. Information on charges and commission fees related to the opening and use of the payment account is available [here](#).

The total cost of consumer loan APR (annual percentage rate) calculating example:
If you receive a EUR 3 000 loan over a 5 year period, the total amount of your payment is EUR 4 124, monthly payment EUR 66.73, and the total annual percentage rate 14.43%. These calculations are carried out under the following assumptions: annual interest rate – 12%, the loan is repaid with annuity method, the loan agreement fee is EUR 60, minimum banking package fee EUR 1 per month.

Housing loan, Idea loan (Loan with collateral)

Agreement fee	0.5% of loan amount or additionally disburseable amount, min. €200
Agreement amendment fee (1)	€200
Change of loan monthly repayment date or loan repayment account	€50

(1) For example, changes in payment schedule (excluding change of loan monthly repayment date), waiver of the part of mortgage, loan issuance conditions, loan currency etc. Agreement amendment fee for Private Banking customers is 0.5% of the current loan balance, min. EUR 200.

In case the interest rate under the agreement is fixed for longer than 12-month term and its validity is terminated as a result of changing the terms and conditions of the agreement, then an additional fee is applied which is equal to the early repayment fee applied to loans with interest rate fixed for longer than 12-month term (see "Early repayment fee"). In such cases, the calculation of the fee is based on the loan amount with the changed terms and conditions but not on the pre-paid loan amount. The validity of the interest rate fixed for longer than 12-month term is considered to be terminated in the following cases:

- the interest rate fixed for longer than 12-month term is changed into the interest rate changed on a 3, 6 or 12 month basis;
- the interest rate fixed for longer than 12-month term is changed into a lower interest rate fixed for longer than

12-month term;

- the loan currency is changed;
- the effective period of the interest rate fixed for longer than 12-month term is shortened;
- the loan amount provided by the agreement is reduced (or the entire loan amount is not drawn-down).

(2) The fee is calculated by the Bank losses due to early repayment. The fee is calculated according to the formula: $I = (\text{ratio } K * P)$,

where I - early repayment fee;

P - loan amount being repaid early;

Ratio K - value calculated by the Bank which depends on the financial market interest rates change, the rest of the period to a fixed rate expiry of the loan agreement and the final repayment date. Ratio K can be calculated using dedicated calculator on Bank's website.
